

Making the Connection:

Air Pollution & Brain Health

Wednesday, May 11, 2016

5 P.M. - 8 P.M.

**Phipps Conservatory and Botanical Garden
Botany Hall, One Schenely Park, Pgh, PA 15213**

**ADVANCE REGISTRATION
RECOMMENDED AT**

**NETWORKING AND
REFRESHMENTS
5 P.M. - 6 P.M.**

Michelle L. Block, Ph.D. is an Associate Professor of Anatomy & Cell Biology at the University of Indiana, School of Medicine. Her research focuses on methods of halting the progression of central nervous system diseases/damage. Dr. Block will discuss the effects of urban pollution on the brain's immune cells.

Jane E. Clougherty, Ph.D. is an Assistant Professor of Environmental and Occupational Health at the Graduate School of Public Health of the University of Pittsburgh. Her research interests focus around the effects of social stressors and air pollution exposures on health outcomes. She'll discuss her most recent findings from research on diesel pollution conducted in downtown Pittsburgh.
